Focus on enhancing Strengths by continued work and exposure, as well as transforming Weaknesses to Strengths by getting Private Instruction to polish subject deficiencies. Additional pointers in Comments below.

COMMENTS:
Arm Velo Max = 75 mph. Bat Exit Velo Max = 75 mph. Intelligent player with knack producing in clutch. Plus speed ceiling potential. Very instinctive smart base runner will take the extra base routinely. Superb bunter and contact hitter. One of the most coachable athletes ever seen, very respectful and works equally as hard on and off field. 4.4 GPA says it all. Bonafide college prospect only question where he will land. Hard to find anybody to out-hustle Ross.
